# Love Every Step

This is it. Baby time.  
Get ready for the mother of all adventures.  
You'll be taking millions of steps with  
your baby. Yep. Wheels help.

It can seem like a pushchair jungle out there.  
Find your perfect pal with this guide.  
Find award-winning pieces with features  
to fit your life. You'll be dodging pretend  
pavement monsters in no time.

You got this.

Cosatto. 50 Years of Happy Babies.

# A pram is a pram, right?

Our Prams & Pushchairs are so much more. They're a bit life-changing. Choose the right pram and you're flying. First up, there are 3 things to consider when buying a pram for your newborn. Step this way...

## Where do you live?

Flat, semi-detached, mansion or the moon, you'll have your own individual access, storage and terrain needs.

- Very big house in the country? We envy you. The world's your oyster.
- Poky studio flat with no room to swing a unicorn? We hear you - consider a one-piece space-saver with no separate carrycot.
- Penthouse flat with a broken lift? Choose a lightweight quick convertor.
- The moon? Anti-gravity works every time.

## How do you travel?

We're experts in moving your baby but what moves you? Car? Train? Taxi? Shoes?

- Diddy car? Choose a compact quick-folder. Medium to large car owners can pretty much choose any system so fill your boots.
- Bus or train? Choose a lightweight easy-lifter.
- Walk everywhere? Real trekkers choose a system with chunky puncture-proof wheels and suspension that means business.

## Where do you go?

Escaping to the country or the corner shop? Your Pram & Pushchair should love what you love.

- Shopaholic with major haul? Choose a luxury piece with a big, big basket.
- Going off the beaten track? Consider an all-terrain system with serious suspension.
- City slickers need a nippy go-to.
- Day trippers and weekenders choose a system with a carrycot.

**We want your life to be a breeze no matter what. If you are after something we don't yet do, just contact us and we'll recommend someone who does. Mind-boggled? Fear not. We'll show you the ropes. Step by step...**

## Prams & Pushchairs at a Glance

So here's the wheel deal. Just like you, all our Prams & Pushchairs have individual star qualities. Ultimately though, they're good all-rounders, so it's about what ticks your boxes. Plus they can all carry a car seat. This makes them 'travel systems'. Circle the dots below. A pattern will form. That will be the one for you. Stroll off into the sunset together. Handle in hand.
